

DD/S 58-779

March 5, 1958

Mr. F. Moran McConihe
Commissioner of Public Buildings
General Services Administration
Washington 25, D. C.

Dear Mr. McConihe:

Our review of the Intermediate Working Drawings and Outline Specifications for our new headquarters building at Langley, Virginia, which were received from Harrison & Abramovitz on 3 February 1958, has been completed in close collaboration with representatives of your Service.

Our comments have been included in the directions, suggestions and questions which Public Buildings Service will furnish the architect-engineer. In addition to these comments we are preparing a "marked" set of architectural plans which can be forwarded to the architect-engineer in the near future. The changes indicated on these plans have been reviewed by and are satisfactory to your representatives.

Subject to the revisions indicated on the above mentioned plans and to the material prepared by the Public Buildings Service, it is recommended that you approve the Intermediate Working Drawings and instruct the architect-engineer to proceed with the next phase of the drawings and specifications.

Sincerely,

/s/

L. K. White
Deputy Director
